ABOUT THE BOSTON FOUNDATION

Grant Maker, Partner in Philanthropy, Civic Leader

The Boston Foundation brings people and resources together to solve Boston’s big problems. With net assets of $1.2 billion, the Foundation has made more than $1 billion in grants over the last decade to nonprofit organizations here and around the world.

The Foundation works in close partnership with donors and companies, with more than 1,100 separate charitable funds established for the general benefit of the community or for special purposes. It also serves as a major civic leader, think tank and advocacy organization, commissioning research into the most critical issues of our time, convening innovative thinkers and helping to shape public policy to advance opportunity for everyone. The Philanthropic Initiative (TPI), the consulting arm of the Foundation, designs and implements customized philanthropic strategies for families, foundations and corporations around the globe.

Opening a COMPANY ADVISED FUND at the Boston Foundation is a great alternative to establishing a private foundation for your company’s philanthropy—with all of the tax benefits and none of the administrative, legal, tax or regulatory burdens.

SOME OF THE WAYS WE PARTNER WITH COMPANIES

**Company Advised Funds**
If you set up a Company Advised Fund at the Boston Foundation, we will serve as a liaison to the nonprofit community as we do with companies like Carbonite and Bain Capital on their giving locally, nationally and internationally.

**Pledge 1% Boston**
By joining Pledge 1% Boston, new companies can network with other entrepreneurs while weaving philanthropy into the fabric of their companies from the very beginning, just as TripAdvisor has.

**Learn About The Issues**
When you join the Boston Foundation and support our Civic Leadership Fund, as General Electric and other companies do, you will be made aware of cutting edge research, attend forums about the pressing issues we face as a region and meet other business and civic leaders.

**Funding Partnerships**
By partnering with you and learning along with you, the Boston Foundation can increase the impact of your giving as we are doing through our close partnership with Eastern Bank.

**Consulting Services Team**
By taking advantage of the expert services of our consulting arm, TPI, you can outsource the management and evaluation of your giving, just as J. Jill has – or engage TPI to help you assess your philanthropy, develop a strategy, or design and launch an initiative, just as Millennium Partners has.
