

The **EQUALITY** Fund
AT THE BOSTON FOUNDATION

The Equality Fund – For Today, For the Future.

Our community has made great strides over the last 50 years, yet LGBTQ+ people still face major challenges—discrimination, poverty, and poorer health outcomes—compared with their straight peers.

In the next 20 years, **\$2.7 trillion** will flow out of LGBTQ+ individual and family estates nationwide. These resources could transform our community's future. By making your charitable estate plan now, you have the power to secure that better future.

The Equality Fund at the Boston Foundation can help you craft a personal legacy that reflects your values and the causes you care about most. **www.tbf.org/equality**

While we can't predict our community's future needs, together we can always be there.
