Independent Auditors' Report

The Board of Directors
Boston Foundation, Inc.:

Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of Boston Foundation, Inc. and its affiliates (the Foundation), which comprise the consolidated statements of financial position as of June 30, 2014 and 2013, the related consolidated statements of activities and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Boston Foundation, Inc. and its affiliates as of June 30, 2014 and 2013, and the changes in their net assets and their cash flows for the years then ended in accordance with U.S. generally accepted accounting principles.

Other Matter – Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The accompanying supplementary schedule of expenditures of federal awards as of June 30, 2014 is presented for purposes of additional analysis, as required by Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the June 30, 2014 consolidated financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 18, 2014 on our consideration of the Foundation’s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Foundation’s internal control over financial reporting and compliance.

KPMG LLP

December 18, 2014, except as to the supplementary schedule of expenditures of federal awards, which is as of March 27, 2015

BOSTON FOUNDATION, INC.

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

(1) Description of the Boston Foundation

(a) Organization

Founded in 1915, the Boston Foundation, Inc. (the Foundation) is one of the nation's oldest and largest community foundations – a major grantmaker, partner in philanthropy, provider of information, and civic leader addressing Greater Boston's most pressing challenges.

The Foundation is a tax-exempt organization as described in Section 501(c)(3) of the Internal Revenue Code (the Code) and is generally exempt from income taxes pursuant to Section 501(a) of the Code and qualifies as a public charity under Section 170(b)(1)(A)(vi) of the Code.

The Foundation has not taken any tax positions which would have a material effect, individually or in the aggregate, upon the Foundation's financial statements. The Foundation believes it has not taken any significant uncertain tax positions or any tax positions that would jeopardize the Foundation's tax-exempt status.

Effective January 1, 2012, The Philanthropic Initiative, Inc. merged with the Foundation, with the Foundation continuing as the surviving corporation.

(b) Activity

As Greater Boston's community foundation, the Foundation devotes its resources to building and sustaining a vital and prosperous city and region, where justice and opportunity are extended to everyone. The Foundation's primary purposes are threefold: to make charitable grants to qualified recipients; to assist donors with their philanthropic goals; and to be a civic leader, convener, and information provider in the Boston community. The Foundation receives support directly from the public. Due to the generosity of donors, the Foundation is able to serve as a major grantmaker in Greater Boston, supporting hundreds of not-for-profit organizations that are helping to build a strong and healthy community.

(2) Summary of Significant Accounting Policies

(a) Basis of Presentation

The accompanying consolidated financial statements, which are presented on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles (GAAP), have been prepared to focus on the Foundation as a whole and to present balances and transactions according to the existence or absence of donor-imposed restrictions. The consolidated financial statements include the accounts of the Foundation and those of its affiliated supporting organizations, which are also 501(c)(3) exempt organizations. The total net assets of the supporting organizations were \$20,241 and \$17,761 as of June 30, 2014 and 2013, respectively. Inter-organizational transactions and balances have been eliminated.

(b) Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities, as of the dates of the consolidated financial statements and the

BOSTON FOUNDATION, INC.

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

reported amounts of revenue and expenses during the reporting periods. Actual results could differ from those estimates.

(c) *Classification of Net Assets*

The Foundation reports information regarding its financial position and activities in three classes of net assets based upon the existence or absence of donor-imposed restrictions, as follows:

- Unrestricted net assets have no donor-imposed or legal stipulations as to their use. Unrestricted net assets include donor-advised funds.
- Temporarily restricted net assets contain donor-imposed stipulations as to the timing of their availability or use for a particular purpose. These net assets are released from restrictions when the specified time elapses or actions have been taken to meet the restrictions.
- Permanently restricted net assets have donor-imposed stipulations that neither expire with the passage of time nor can be removed by actions of the Foundation and consist primarily of the historic dollar value of gifts to establish or add to the Foundation's donor-restricted endowment funds. Net assets of such funds in excess of their historic dollar value are classified as temporarily restricted net assets until appropriated by the Board of Directors (the Board) and spent in accordance with the standard of prudence imposed by state law.

The Articles of Organization of the Foundation include a variance power provision, which gives the Board the power to modify any restriction or condition placed on gifts, if in its sole judgment the Board determines that the restriction becomes, in effect, incapable of fulfillment due to the changing needs of the community. During 2014, a fund previously classified as permanently restricted was reclassified as unrestricted due to the release of restrictions previously imposed by the donor. During 2013, the Board utilized variance power to 1) grant out the balance of an advised fund to a not-for-profit organization, and 2) select a new eligible beneficiary for the annual distributions from a permanently restricted fund when the current named beneficiary became no longer eligible.

(d) *Spending Policy*

Generally, the Foundation manages its funds using a total return concept, which emphasizes total investment return, including interest and dividends and realized and unrealized gains and losses. Annually the Foundation's Board determines the level of grantmaking based on two factors that serve to stabilize annual spending levels and preserve the real value of the endowment over time. In fiscal years 2014 and 2013, those factors are 70% of the prior year's spending, adjusted for inflation, plus 30% of a spending rate applied to the estimated fair value of its endowment. The discretionary endowment is made up of funds with no restrictions placed on the way income may be used. The designated endowment is composed of funds created for specifically named agencies or projects. The spending policy rates were as follows:

BOSTON FOUNDATION, INC.

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

	<u>2014</u>	<u>2013</u>
Discretionary endowment	6.4%	6.4%
Designated endowment	5.0	5.4
Endowed donor advised funds	5.4	5.4

For fiscal year 2015, the Board of Directors has approved the spending policy rate of 6.4% for its discretionary endowment and 5.0% for designated endowments and endowed donor advised funds.

(e) Investments

The investment goal of the Foundation is to invest its assets in a manner that will achieve a total rate of return sufficient to replace the assets spent for grants and expenses and recoup any value lost due to inflation. To manage risk, the Foundation strives to diversify its investments among various financial instruments and asset categories and uses multiple investment strategies and managers. Key investment decisions are made by the Board's Investment Committee, which has oversight responsibility for the Foundation's investment program. The Foundation's portfolio is mostly managed by outside investment managers.

Investments are reported at estimated fair value. If an investment is held directly by the Foundation and an active market with quoted prices exists, the Foundation reports the fair value as the market price of an identical security. Shares in mutual funds are based on share values reported by the funds as of the last business day of the fiscal year. The Foundation also holds shares or units in traditional institutional funds as well as in alternative investment funds involving private equity, venture capital, flexible capital, and real asset strategies. Flexible capital strategies involve funds whose managers have the authority to invest in multiple asset classes at their discretion, including the ability to invest long and short in the markets. Flexible capital funds may hold securities or other financial instruments for which a ready market exists and are priced accordingly. In addition, such funds may hold assets which require the estimation of fair values in the absence of readily determinable market values. Private equity, venture capital, and real asset funds generally hold assets that require the estimation of fair values in the absence of readily determinable market values. Because of the inherent uncertainties of valuation, the fair values may differ significantly from the value that would have been used had a ready market for the investment existed and the differences could be material. Such valuations are determined by fund managers and generally consider variables such as operating results, comparable earnings multiples, projected cash flows, recent sales prices, and other pertinent information, and may reflect discounts for the illiquid nature of certain investments held.

The Foundation has applied GAAP, which permits the use of net asset value (NAV) or its equivalent reported by each underlying alternative investment fund as a practical expedient to estimate the fair value of the investment. The flexible capital investments are generally redeemable under the original terms of the subscription agreements. However, it is possible that these redemption rights may be restricted by the funds in the future in accordance with the underlying fund agreements, as applicable. Changes in market conditions, the economic environment, or the funds' liquidity provisions may significantly impact the NAV of the funds, and consequently, the fair value of the Foundation's interest in such funds. Although certain investments may be sold in a secondary market, the secondary market is not active and individual transactions are not necessarily observable;

BOSTON FOUNDATION, INC.

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

therefore, it is possible that if the Foundation were to sell its interest in a fund in the secondary market, the sale could occur at an amount materially different from the reported value. Other alternative investments (private equity, venture capital, and real assets) are not redeemable; they are liquidated over time as funds become available according to the terms of the partnership agreements.

Realized and unrealized investment gains or losses are determined by comparison of average asset cost to net proceeds received at the time of disposition and comparison of the difference between market values and average cost, respectively. Dividend and interest income is recognized when earned.

(f) *Cash and Cash Equivalents*

Except for amounts included in the Foundation's investment pools, the Foundation records liquid investments purchased with remaining maturities of less than 90 days as cash equivalents.

(g) *Contributions Receivable*

Contributions receivable consist of unconditional promises to give that are expected to be collected within one year.

(h) *Fixed Assets*

The Foundation capitalizes expenditures over \$5 incurred to purchase office equipment, computer systems, furniture, and leasehold improvements. Depreciation is recognized over the estimated useful life of the assets, typically from three to five years, on a straight-line basis. Leasehold improvements are amortized over the lesser of their useful lives or the remaining term of the lease.

(i) *Grants Expense*

The Foundation records grants as expenses when all conditions stipulated by the grant have been substantially met by the grantee. Grants issued with future payment dates and without substantive conditions are accrued and expensed when approved.

(j) *Contributions and Bequests*

Contributions, including unconditional promises from donors, are recorded as revenue when received. Promises to give subject to donor-imposed stipulations that the corpus be maintained permanently are shown as increases in permanently restricted net assets. Conditional promises to give are not recognized until they become unconditional, that is, when the conditions on which they depend are substantially met. Bequests generally are accrued as revenue when the respective will has been admitted to probate and all appeal periods have expired. Contributions to be received after one year are discounted at the appropriate rate commensurate with the risks and duration involved.

(k) *Program Support*

Program support consists primarily of additional expenses incurred related to individual programs or programs in which the funding is shared by others. These expenses are separate and distinct from the Foundation's operating expenses. Examples of current programs are the Boston Indicators Project, StreetSafe Boston, the Skillworks Initiative and Success Boston.

BOSTON FOUNDATION, INC.

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

(l) Operating Expenses

Operating expenses include salaries and benefits, rent, and other overhead expenses that are incurred in the operation of the Foundation overall and are not specifically attributable to a particular fund or program. An administrative fee ranging from 0.5% to 1.2% of the net asset balance by fund is charged to each donor advised, discretionary and designated fund to cover operating expenses. Fees between 1% and 20% of contributions received by fund are charged to initiative and similar funds depending upon the relative level of support provided by the Foundation's operating resources. In addition, certain specific operating expenses are charged against income earned on specific funds prior to the time grants are paid. The Foundation also charges an investment support fee of 0.15% to cover certain investment-related operating expenses.

(m) Disclosures about the Fair Value of Other Assets and Liabilities

The carrying values of the Foundation's cash and cash equivalents, receivables, other assets, accounts payable, and accrued liabilities approximated their fair values because they are stated at net realizable value or have relatively short-term maturities.

(n) Fair Value

GAAP defines fair value and requires certain disclosures about fair value measurements. Fair value represents the price that would be received upon the sale of an asset or paid upon the transfer of a liability in an orderly transaction between market participants as of the measurement date. GAAP also establishes a fair value hierarchy that prioritizes observable and unobservable inputs used to measure fair value into three levels:

- Level 1 – quoted prices (unadjusted) in active markets that are accessible at the measurement date for assets or liabilities;
- Level 2 – observable prices that are based on inputs not quoted in active markets, but corroborated by market data; and
- Level 3 – inputs are derived from valuation methodologies, including pricing models, discounted cash flow models, and similar techniques, and are not based on market, exchange, dealer, or broker-traded transactions. In addition, Level 3 valuations incorporate assumptions and projections that are not observable in the market, and significant professional judgment is required in determining the fair value assigned to such assets or liabilities.

The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs. In determining fair value, the Foundation utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs to the extent possible.

Most investments classified in Levels 2 and 3 consist of shares or units in investment funds as opposed to direct interests in the funds' underlying holdings, which may be marketable. Because the NAV reported by each fund is used as a practical expedient to estimate the fair value of the Foundation's interest therein, its classification of Level 2 or 3 is based on the Foundation's ability to redeem its interest at or near the date of the statement of financial position as opposed to whether valuation inputs are observable or unobservable. If the interest can be redeemed in the near term, the

BOSTON FOUNDATION, INC.

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

investment is classified in Level 2. The classification of investments in the fair value hierarchy is not necessarily an indication of the risk, liquidity, or degree of difficulty in estimating the fair value of each investment's underlying assets and liabilities.

(3) Program-Related Receivables and Other Assets

The Foundation invests a portion of its funds in projects that advance its philanthropic purposes by providing loans, known as program-related "investments", to certain not-for-profit organizations. At June 30, 2014 and 2013, respectively, these loans, included in program-related receivables and other assets, totaled \$5,577 and \$8,288 net of unamortized discounts of \$1,246 and \$535 and allowance for possible losses of \$275 and \$453 in 2014 and 2013, respectively, with various repayment dates beginning in 2015 and ending in 2032.

In addition, the Foundation has a ten-year \$2,500 loan guarantee expiring in 2016 for the purpose of building or improving charter schools in the Massachusetts and a \$3,000 loan guarantee expiring in 2031 for the purpose of reducing the cash-funded reserves in credit projects that have a first mortgage financing from the Massachusetts Housing Partnership Fund Board. The Foundation's \$2,500 loan guarantee serves as a backup to guarantees made by other entities and the Foundation's \$3,000 guarantee is matched by the same amount from another foundation. As of June 30, 2014 and 2013, the Foundation's commitments have not been drawn. The Foundation believes the estimated fair value of the guarantees and any potential liability is not material.

(4) Investments

The Foundation maintains three investment pools as part of its Fund for the 21st Century for investing its assets as follows:

- **Balanced Plus Pool** – Approximately 45 investment management firms manage the assets in this pool. Approximately 20% of this pool is allocated to private partnerships holding interests in private equity, venture capital, real estate, timber, and energy. This asset mix is intended to produce the highest long-term investment return. The Foundation invests its endowment assets in this pool.
- **Balanced Pool** – Approximately 22 investment management firms manage the assets in this pool. This pool does not include private partnerships, which use strategies that are generally expected to yield higher returns over time, and accordingly, this asset allocation is expected to produce a slightly lower investment return. Typically, donor advised funds desiring a higher allocation to fixed income and limited exposure to illiquid investments are invested in this pool. This pool was established in February 2011.
- **Short-Term Pool** – This pool is invested in money market funds and U.S. Treasury bills with a weighted average maturity of less than 60 days. Typically, donor advised funds intending to avoid market exposure and to make grants in the near term are invested in this pool. This pool was established in January 2010.

BOSTON FOUNDATION, INC.

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

The following table summarizes the Foundation's investments in the fair value hierarchy as of June 30, 2014:

	2014				Redemption or liquidation	Days' notice	Related unfunded commitment

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

- (1) Flexible Capital (except credit opportunities that are not redeemable) represents minority ownership in investment vehicles that generally contain rolling lock-up provisions. Under such provisions, redemptions are generally possible every one to three years. A redemption request must be made in accordance with the notification terms of the underlying agreement. Investments of \$31,940 are redeemable quarterly and \$158,800 are redeemable in 1 – 5 years. However, certain, or all, of the additional related investment proceeds may not be received for a significantly longer period until underlying investments are sold (so called side-pockets). Side-pocket balances of \$23,020 are illiquid.
- (2) The Foundation's ownership interests in private equity and venture capital investments represent ownership interests in a variety of entities, typically as a minority limited partner. These investments are both directly in private equity and venture capital partnerships as well as in funds of funds that make these types of investments.
- (3) Real assets represent ownership interests in a variety of entities, including as a minority limited partner. These entities focus their investment activities on a type of asset, such as the ownership of real estate properties, timber assets, or oil and gas properties. The underlying investment vehicles often utilize leverage.
- (4) These securities are directly owned U.S. Treasury Inflation Protected Securities (TIPS). The markets for these securities are active and trading in these bonds typically occurs every day. However, as these markets are over the counter, pricing for all securities is not always available daily. As such, they have been classified in Level 2.

In addition, as of June 30, 2014 and 2013, the Foundation owns an interest in other noncash assets that were received as a donation. These assets are currently held for sale and are carried at an estimated fair value of \$479 and \$619, at June 30, 2014 and 2013, respectively.

There were no asset reclassifications in 2014 or 2013.

BOSTON FOUNDATION, INC.

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

Liquidity

Certain investments measured at NAV are redeemable with the funds or limited partnerships at NAV under the original terms of the subscription agreement and/or partnership agreements. The majority of such redemptions require 90 days or less written notice prior to the redemption period. The investments' fair values are aggregated below by redemption or liquidation period, availability, or sale in the case of marketable securities as of June 30:

	<u>2014</u>	<u>2013</u>
Daily	\$ 323,909	287,212
Semi-monthly	69,274	57,757
Monthly	102,951	81,985
Quarterly	128,138	80,038
1 to 5 years	<u>175,690</u>	<u>144,773</u>
Total redeemable investments	799,962	651,765
Illiquid	<u>171,686</u>	<u>207,462</u>
Total	\$ <u><u>971,648</u></u>	\$ <u><u>859,227</u></u>

Investment Returns

Investment returns for the years ended June 30 were as follows:

	<u>2014</u>	<u>2013</u>
Interest and dividends, net of fees	\$ 5,604	10,805
Unrealized and realized gains on investments and trusts	<u>123,058</u>	<u>65,297</u>
Total return	\$ <u><u>128,662</u></u>	\$ <u><u>76,102</u></u>

Interest and dividends are shown net of investment management and custody fees. Investment management and custody fees paid directly to the managers for the years ended June 30, 2014 and 2013 were \$2,770 and \$2,190, respectively. Additional investment fees that were not paid directly to the managers have been netted against the return on certain investments. The Foundation is not able to determine the amount of such fees.

Investment returns by investment pool for the years ended June 30 were as follows:

	<u>2014</u>	<u>2013</u>
Balance plus pool	\$ 108,611	68,718
Balance pool	6,466	1,851
Short term pool	36	75
Other investments	<u>13,549</u>	<u>5,458</u>
Total return	\$ <u><u>128,662</u></u>	\$ <u><u>76,102</u></u>

BOSTON FOUNDATION, INC.

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

Commitments

Private equity, venture capital, and real asset investments are generally made through limited partnerships. Under the terms of these agreements, the Foundation is obligated to remit additional funding periodically as capital calls are exercised by the manager. These partnerships have a limited existence, generally around 10 years, and such agreements may provide for annual extensions for the purpose of disposing of portfolio positions and returning capital to investors. However, depending on market conditions, the inability to execute the fund's strategy, and other factors, a manager may extend the term of a fund beyond its originally anticipated existence or may wind down the fund prematurely. The Foundation cannot anticipate such changes because they are based on unforeseen events, but should they occur they may result in less liquidity or return from the investment than originally anticipated. As a result, the timing and amount of future capital calls expected to be exercised in any particular year is uncertain.

Unfunded commitments at June 30 were as follows:

	<u>2014</u>	<u>2013</u>
Private equity and venture capital	\$ 31,642	36,823
Real assets	9,947	9,843
Total unfunded commitments	<u>\$ 41,589</u>	<u>46,666</u>

These amounts are generally payable within ten days of the receipt of a capital call notice. The Foundation has no control as to when a request for funding will be received. It is currently anticipated that the Foundation will be required to fund these commitments within the next three years, but the specific timing is ultimately subject to the discretion of the fund managers.

(5) Endowment Net Assets

Endowment net assets consist of the following:

	<u>Unrestricted</u>	<u>Temporarily restricted</u>	<u>Permanently restricted</u>	<u>Total</u>
As of June 30, 2014:				
Endowment funds	\$ (2,919)	222,265	222,002	441,348
As of June 30, 2013:				
Endowment funds	\$ (4,501)	174,123	216,689	386,311

GAAP provides guidance on the net asset classification of donor-restricted endowment funds for a not-for-profit organization that is subject to an enacted version of the Uniform Prudent Management of Institutional Funds Act (UPMIFA) and requires comprehensive disclosures regarding donor-restricted endowment funds.

The Foundation's endowment for the years ended June 30, 2014 and 2013 consists of 232 and 231, respectively, individual funds established for a variety of purposes including donor-restricted endowment funds.

BOSTON FOUNDATION, INC.

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

The Foundation is subject to UPMIFA as adopted by the Commonwealth of Massachusetts. Under UPMIFA, the Board of Directors has discretion to determine appropriate expenditures of a donor-restricted endowment fund in accordance with a robust set of guidelines about what constitutes prudent spending. UPMIFA permits the Foundation to appropriate for expenditure or accumulate so much of an endowment fund as the Foundation determines to be prudent for the uses, benefits, purposes and duration for which the endowment fund is established. Seven criteria are to be used to guide the Foundation in its yearly expenditure decisions: 1) duration and preservation of the endowment fund; 2) the purposes of the Foundation and the endowment fund; 3) general economic conditions; 4) effect of inflation or deflation; 5) the expected total return from income and the appreciation of investments; 6) other resources of the Foundation; and 7) the investment policy of the Foundation.

Although UPMIFA offers short-term spending flexibility, the explicit consideration of the preservation of funds among factors for prudent spending suggests that a donor-restricted endowment fund is still perpetual in nature. Under UPMIFA, the Board is permitted to determine and continue a prudent payout amount, even if the market value of the fund is below historic dollar value. There is an expectation that, over time, the permanently restricted amount will remain intact. This perspective is aligned with the accounting standards definition that permanently restricted funds are those that must be held in perpetuity even though the historic-dollar-value may be expended on a temporary basis. At June 30, 2014 and 2013, the fair value of certain of these individual funds was less than their historic dollar value by \$2,919 and \$4,501, respectively, due to investment losses. Unrestricted net assets have been charged for the deficiency caused by these losses.

The Foundation classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified as permanently restricted net assets is classified as temporarily restricted net assets, until appropriated for spending by the Board of Directors.

BOSTON FOUNDATION, INC.

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

Changes in endowment net assets for the year ended June 30, 2014 are as follows:

BOSTON FOUNDATION, INC.

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

(6) Fixed Assets

Fixed assets consisted of the following as of June 30:

	<u>2014</u>	<u>2013</u>
Office equipment, computer system, and furniture	\$ 1,526	1,611
Leasehold improvements	2,592	2,571
	<u>4,118</u>	<u>4,182</u>
Less accumulated depreciation	<u>(3,694)</u>	<u>(3,610)</u>
	<u>\$ 424</u>	<u>572</u>

Depreciation expense was \$209 and \$133 for the years ended June 30, 2014 and 2013, respectively.

(7) Grant Commitments

Grants payable of \$9,267 as of June 30, 2014 represent unconditional promises to other organizations. Grants scheduled to be paid after one year are discounted at a rate commensurate with the duration involved.

In addition, as of June 30, 2014, the Board of Directors had authorized the payment of certain grants in future periods, subject to certain conditions to be met by the grantees that have not yet met the conditions for accrual in the accompanying consolidated financial statements. Total grants subject to such conditions are as follows:

	<u>2014</u>
Grants subject to conditions to be met by external grantees	\$ 17,200
Grants subject to conditions to be met by internal grantees	<u>7,809</u>
Total grants subject to conditions to be met by grantees	<u>\$ 25,009</u>

BOSTON FOUNDATION, INC.

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

(8) Lease Commitments

The Foundation has a lease at 75 Arlington Street with an expiration date of September 30, 2018. In addition, in July 2012 the Foundation signed a lease for additional space at 420 Boylston Street, commencing on January 1, 2013, with an expiration date of September 30, 2018. The Foundation has calculated rent expense for the initial terms of these leases on the straight-line basis. Amounts currently expensed for which payment is not yet due are included in accounts payable and accrued liabilities in the consolidated statements of financial position. Rent expense was \$1,423 and \$1,347 for the years ended June 30, 2014 and 2013, respectively. Minimum annual rent payments before real estate taxes and operating expense escalations are:

	<u>Minimum annual rent payments</u>
Year:	
2015	\$ 1,393
2016	1,372
2017	1,382
2018	1,389
2019	347

(9) Employee Benefit Plans

The Foundation participates in a 403(b) defined contribution plan. The current amount contributed by the Foundation for eligible employees is 6% of annual gross salary up to the IRS allowed maximum. All employees are eligible for participation after one year of service. The total cost of the plan charged to the Foundation's operations amounted to \$409 and \$401 for the years ended June 30, 2014 and 2013, respectively.

The Foundation provides deferred compensation plans for its executives as approved by the Compensation Committee of the Board of Directors. The amount contributed was \$360 and \$320 for the years ended June 30, 2014 and 2013, respectively.

Independent Auditors' Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

The Board of Directors
Boston Foundation, Inc.:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the consolidated financial statements of Boston Foundation, Inc. and its affiliates (the Foundation), which comprise the consolidated statement of financial position as of June 30, 2014, the related consolidated statements of activities and cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated December 18, 2014.

Internal Control over Financial Reporting

In planning and performing our audit of the consolidated financial statements, we considered the Foundation's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the consolidated financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Foundation's internal control. Accordingly, we do not express an opinion on the effectiveness of the Foundation's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Foundation's consolidated financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Foundation's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Foundation's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditors' Report on Compliance for Each Major Federal Program and on Internal Control over Compliance

The Board of Directors
Boston Foundation, Inc.:

Report on Compliance for Major Federal Program

We have audited Boston Foundation, Inc.'s (the Foundation's) compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on the Foundation's major federal program for the year ended June 30, 2014. The Foundation's major federal program is identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for the Foundation's major federal program based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Foundation's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for the Foundation's major federal program. However, our audit does not provide a legal determination of the Foundation's compliance.

Opinion on Major Federal Program

In our opinion, the Foundation complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended June 30, 2014.

Report on Internal Control over Compliance

Management of the Foundation is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Foundation's internal control over compliance with the types of requirements that could have a direct and material effect on its major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for its major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Foundation's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.
